For the new way we work

The world of work is changing, and businesses are looking to give their employees the technology they need to meet the challenges of today's redefined office environment. Promethean's interactive displays are designed to optimise collaboration, facilitate deeper connections, and promote productivity.

Easy collaboration no matter where you are

When you equip your offices and gathering spaces with a Promethean ActivPanel, you'll ensure all employees feel present and included—whether they're in the office or remote. You'll bring unparalleled interactivity and engagement to every project and every task.

Conference rooms

With the ActivPanel, boring meetings are a thing of the past. You'll have access to whiteboarding, screen sharing, and document sharing for enhanced visuals and interactive collaboration with Microsoft Teams and Zoom.

Huddle spaces

Energise your small group brainstorming sessions with the interactive panel that's designed to work seamlessly with the hardware and software that you're using right now—from Teams to Zoom, Microsoft Inking to PowerPoint, Miro and Mural. No more gathering around a single laptop. You'll have a bright, beautiful display to see all your ideas come to life. The ActivPanel LX 65" is the perfect size for smaller meeting spaces and offices.

Training rooms

When training, educating, or onboarding your employees, it's critical to hold their attention and ensure your message is getting across loud and clear. The ActivPanel helps your instructors create compelling, effective training sessions, and presentations that engage and enlighten.

Public areas

Adding an interactive panel to your lobby, entryway, or breakroom is a great way to display important information about your company. Give visitors a visual introduction to who you are and what you do. Tell employees about company news and updates. Post a weekly or monthly schedule of meetings and events. Consider placing an interactive display anywhere you might have put a TV monitor.

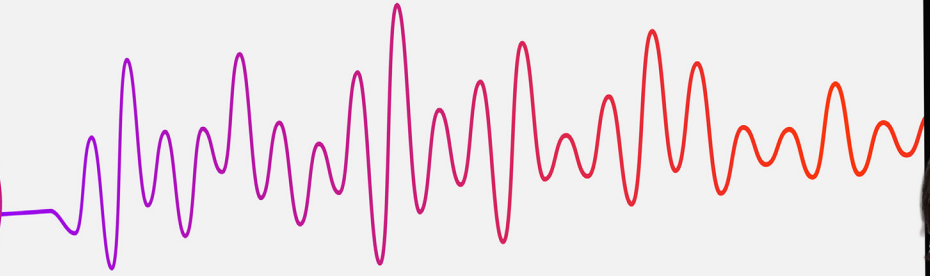

ActivPanel LX: A flexible solution that fits any budget

The ActivPanel LX is a reliable, high-quality interactive display that offers superior value, ease of use, flexibility, and versatility for the evolving workplace environment. Available in three sizes (65", 75", 86"), the ActivPanel LX offers a crystal clear 4K display, LCD bonded glass that provides an excellent writing and viewing experience, advanced touch technology, and dual front-facing speakers.

Five-year on-site warranty

The ActivPanel LX five-year on-site warranty is the best in the business—and guarantees we're in it for the long haul. This industry-leading warranty gives you the peace of mind of knowing Promethean stands by our products and will be there for you every step of the way.

Beautifully simple, and so easy to use

Because the ActivPanel LX works with the hardware, software, and apps you currently use, there's no learning curve. That means your employees can start creating, collaborating, and communicating right away. The ActivPanel LX is easy to install and set up, requiring minimal training and limited support from IT staff. Not only that, IT administrators won't need to enrol, manage, or frequently update the panels, or deal with security issues.

Seamless integration with the tech you use today

The ActivPanel LX can be connected to a laptop with a single USB-C cable, instantly turning your computer into a large-format interactive display. It can also be paired with a computing module that fits your preferred ecosystem—whether it be Windows, Google, or Android. For meetings, you can easily connect a third-party camera and microphone and run Microsoft Teams or Zoom from your own device or the OPS-M.

Versatile stands and mounts

ActivPanel LX comes with a slim wall mount in the box. But if you're looking for more flexibility, we've got a variety of mobile, fixed, and height-adjustable stands and mounts to fit your requirements.

Multiple computing options

ActivPanel LX supports a wide variety of best-in-class computing options—from our own OPS-M module for the Microsoft ecosystem to micro PCs by Dell, Lenovo, and HP—all of which can be mounted right on the back of your panel.

Our accounting functionality for small businesses

Promethean

“Promethean basically blew everybody else out of the water.”

That’s according to Ed Becker, the lead instructor at NCR who helped select which interactive panel the Fortune 500 company would use.

“We’re in the service industry, so service means a lot to us. We were taken care of from the start. We had people wanting to come in and share, and they’ve given us a lot of support and a lot of help throughout it all. It was almost over the top.”

“We’re really just scratching the surface of what we’re capable of doing. A lot of us have been teaching so long in the same way. So to get this infusion of new technology and new possibilities of how to really connect with students is very exciting. We’re all very much looking forward to learning more.”

A world-wide leader you can count on

Promethean is a leading manufacturer of interactive displays and a pioneer in the industry, with more than 25 years of experience. Our solutions are used in more than 120 countries and have been recognized with more than 40 award nominations and wins in the last five years.

Our customers are leaders in their field

In addition to being the market leader in K-12 education, Promethean has been serving the business sector for several years with its award-winning interactive panels. NCR, the No. 1 global provider of POS and ATM software and hardware, uses Promethean interactive panels as the centerpiece of its technician training program.
